

Recycle your imagination

Our museum is well known for creating amazing exhibitions through repurposing, recycling and the imagination of our team.

The pandemic we are living through is something we will most likely, never experience again in our lifetime. Even though this has been an extremely tough time for us all, we want to stay positive, and while we have mostly been at home and off school we have noticed some amazing creations and we want to celebrate and remember the amazing things people are doing during this time.

As a nationally styled museum we are your museum and we want you to be involved! During this pandemic we have been creating new free home activities every week and now want to see what you can create.

Using recycling alone can you make a new emergency vehicle from a cardboard box? Can you make a helmet or uniform from single use plastic and left over paper? Or feeling crafty, then use recycling to create an amazing peice of art that represents these times.

As a museum we care and document the past, present and the future. Fire your imagination and create something amazing and when we reopen you can donate your creation so it can be kept safe for generations to come.

Become part of the story and don't forget to take photos and explain your creation.
