

VE Day house party

2020 is the 75th anniversary of VE Day, a day of celebration, community and family. Sadly due to current issues large public celebrations and events including those we were attending with our historic fleet. BUT let's not let this get us down and party at home!

Celebrate this memorable time 2020 lockdown style and go digital. Make the most of modern technology and virtually get everyone together. Lockdown is giving us all lots of time to get creative and really fire our imagination so let's keep it simple and make your own bunting flags.

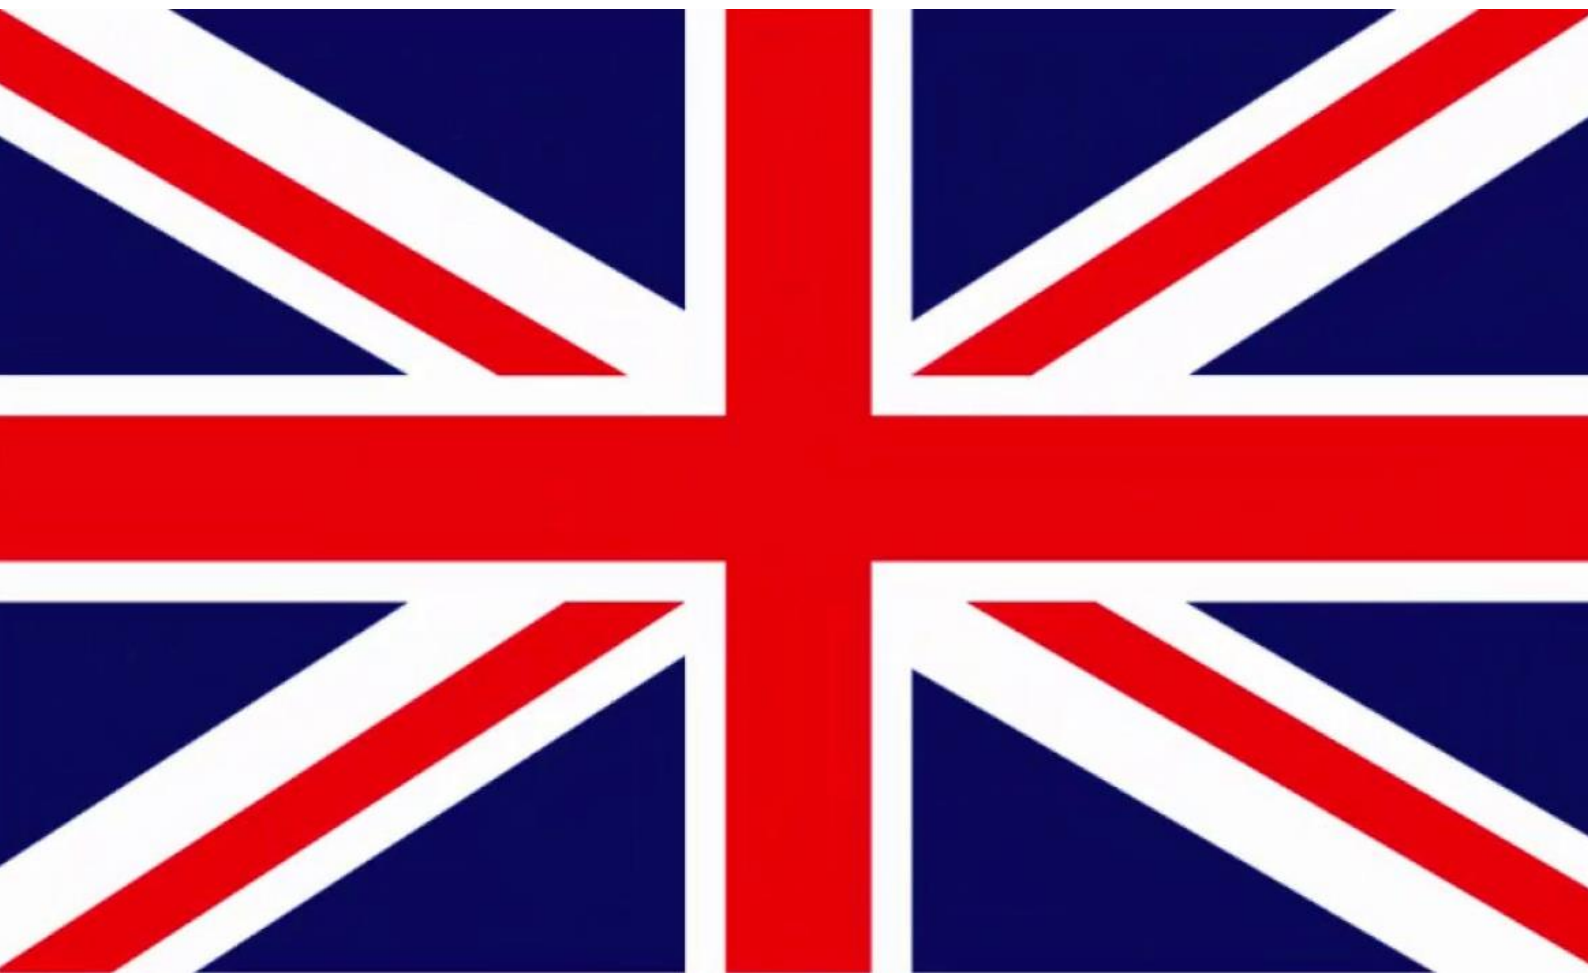

Don't worry if you have no printer and unable to use the flags below. Use your creative mind, reuse and recycle to make your own from scratch. All you will need is string or rope to hang your flags.

Our Learning team have created four flag designs below if you need inspiration or as above make and design your own with a 2020 theme.

Cut paper, card or fabric into triangles, leaving a small tab on the top to fold over and secure the flag to the string or rope.

Don't forget to share your creative mind with us on social media!
