

VE Day home fly past

2020 is the 75th anniversary of VE Day, a day of celebration, community and family. Sadly due to current issues large public celebrations and events including those we were attending with our historic fleet. BUT let's not let this get us down and create our own memorable time!

A fly past is performed to commemorate times just like this. Let's get creative and make our own paper planes. See how far yours will fly and if you can, try with your family to create a spectacular air display with loop the loops and spins or just keep your fingers crossed they fly in a straight line.

Using paper or thin card follow the folding pattern below or become an engineer and create your own design.
